

SINCE 1991

Burton's Fire Inc. has Phos-Chek Class A foam concentrate in inventory!

PHOS-CHEK® WD-881

Cut the time and cost of fighting fires with Phos-Chek

fire retardants. Phos-Chek has been specially designed to considerably reduce water's tension through a unique mixture of surfactants. Using minute concentrations (between 0.1% to 1.0%) of Phos-Chek foam allows water to adhere and penetrate porous materials. This penetration quickly extinguishes the fire and helps protect neighboring structures.

Burton's Fire stocks Phos-Chek Class A foam concentrate in 5-gallon containers at our facility in Modesto. By request, also available in 55-gallon and 260-gallon containers.

PRICE FOR INDIVIDUAL 5-GALLON CONTAINERS:

\$14.35 per gallon (\$71.75 per 5-gallon container)
(price subject to change w/o notice)
